Students Discover, Picket CIA Agent

GRINNELL, Iowa, Feb. 15 (AP) — A representative of the super-secret CIA found himself picketed today on the campus of Grinnell College.

A group of students ranging in number from three to nine sat in the hall outside the school's placement office, protesting a visit by the CIA man to recruit graduates.

The students — mostly members of a local chapter of Students for a Democratic Society — handed out literature and carried posters, some of which read:

"What is the CIA REALLY doing in Vietnam? Indonesia? Santo Domingo?"

"Where there is an invisible government there is no democracy."
